

SATYAM TYAGI

Full Stack Web Developer | MERN Stack Developer | Frontend Developer

Ghaziabad, Uttar Pradesh, India | +91 8287063229 | satyamtyagiji15@gmail.com | LinkedIn: [linkedin.com/in/satyam-tyagi15](https://www.linkedin.com/in/satyam-tyagi15) | GitHub: github.com/satyamtyagi15 | Portfolio: portfolio-website-fawn-beta-54.vercel.app | YouTube: youtube.com/@astroknight.15

PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer and MERN Stack Developer currently pursuing B.Tech in Computer Science Engineering at ABES Institute of Technology. Hands-on experience building and deploying responsive web applications, AI-integrated platforms, and Web3-enabled products using JavaScript, React.js, Node.js, Express.js, MongoDB, and modern frontend tooling. Strong foundation in data structures, database management, REST API development, version control, and UI-focused implementation. Recognized through hackathon achievements, project showcases, and a growing portfolio of shipped applications across GitHub, Vercel, Netlify, and YouTube. Actively seeking software development, frontend, and full stack internship or entry-level opportunities.

CORE SKILLS

Languages: JavaScript, TypeScript, Python, Java, C++, C, HTML5, CSS3, Go (working knowledge)

Frontend: React.js, Next.js, React Router, Tailwind CSS, Bootstrap, Framer Motion, CSS Modules, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, API Integration, JWT Authentication, Role-Based Access Control, Multer, Nodemailer

Databases: MongoDB, MySQL, PostgreSQL, SQLite, Redis (exposure), Database Management Systems

Developer Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Netlify, Docker, YouTube, LiveKit

AI / Emerging Tech: AI Integration, LLM Workflows, Prompt Engineering, RAG-oriented concepts, Quiz Generation, Smart Contract Security Analysis, Web3, Solidity, Hardhat, IPFS

Other Technologies: GraphQL, Redis, Go, Solidity, Hardhat, ethers.js, Groq SDK, OpenWeatherMap API, Geolocation API, Tableau,

Concepts: Full Stack Development, MERN Stack, OOP, DSA, DBMS, Web Security Basics, Smart Contract Analysis, Deployment, Problem Solving

PROJECT EXPERIENCE

Academic Project Experience – ABES Institute of Technology | Sep 2025 – Oct 2025 | Ghaziabad, Uttar Pradesh

Developed a full-stack Disaster Preparedness web app using MERN stack, including backend REST APIs and database integration. Optimized frontend responsiveness and accessibility, and delivered the academic solution on time with all core requirements met.

Technical Coursework & Labs – ABES Institute of Technology | 2023 – Present | Ghaziabad, Uttar Pradesh

- Completed practical coursework and lab assignments in Data Structures, Web Development, Database Management Systems, Algorithms, and Software Engineering.
- Built small-scale applications to strengthen frontend-backend integration, database design, and debugging fundamentals.
- Used Git and GitHub for code versioning, collaboration, and project documentation.

SELECTED PROJECTS

Personal Portfolio Website | React 18, React Router DOM, Framer Motion, CSS Modules, YouTube Embed API

Live: portfolio-website-fawn-beta-54.vercel.app | GitHub: github.com/satyamtyagi15/Portfolio-Website

- Built a production-ready personal portfolio website to showcase projects, skills, certifications, achievements, and contact information in a professional format.
- Implemented a fully responsive UI with sidebar navigation, smooth page transitions, animated particle and wave effects, and a custom neon dark design system.
- Integrated a dedicated projects section with embedded video demos and structured content to present multiple shipped applications to recruiters and hiring teams.
- Used the site as a personal brand hub connecting LinkedIn, GitHub, YouTube, and deployed applications.

AI EdTech Platform (EduSafe – The AI-First Safety & Learning Ecosystem) | Full Stack Product Project | AI-first EdTech Platform

YouTube Demo: youtube.com/watch?v=NXIxutB4WaY | GitHub: github.com/satyamtyagi15/AI-ED-TECH-PLATFORM

- Developed and presented EduSafe, an AI-first EdTech and safety platform focused on combining digital learning workflows with student-centric safety and platform management ideas.
- Structured the project as an enterprise-grade product concept with dynamic user flows, feature-rich learning experience, and scalable platform thinking.
- Demonstrated end-to-end product building capability through public project presentation, source code publishing, and technical communication.

- Strengthened experience in full stack architecture planning, interface design, and AI-enabled application ideation.

AI Security Shield: Full-Stack Blockchain & Web3 Smart Contract Security Platform | React, Vite, Express, Groq SDK, Hardhat, Solidity

YouTube Demo: youtube.com/watch?v=0V2rY9-0W7E | GitHub: github.com/satyamtyagi15/AI-SECURITY-SHIELD

- Built a Web3 dApp that analyzes smart contracts for security vulnerabilities using AI powered by Groq.
- Developed the frontend using React and Vite, the backend using Express, and the blockchain layer using Hardhat and Solidity.
- Integrated AI-assisted smart contract analysis to improve vulnerability identification and project relevance for blockchain security use cases.
- Documented setup, environment configuration, and deployment workflow to support reproducibility and future extension.

ADDITIONAL PROJECTS & TECHNICAL PORTFOLIO

Built and showcased multiple additional projects across GitHub, YouTube, Vercel, and Netlify including: Advanced To-Do List App, Weather App with OpenWeatherMap API, Professional Scientific Calculator, Rock Paper Scissors Lizard Spock Full Stack Game, Basic Security System, Bella Vista Restaurant Landing Page, and Zomato Landing Page clone. Public project demos are available through the Astroknight YouTube channel and Portfolio website.

ACHIEVEMENTS & LEADERSHIP

- Runner-Up, IDEAVERSE 2025, ABES Institute of Technology.
- 2nd Runner-Up at HackIndia AI & DeepTech Hackathon under team leadership (as publicly shared on LinkedIn activity).
- Qualified in the Internal Smart India Hackathon (SIH) at ABES Institute of Technology and selected among the top 50 teams for internal screening.
- Shortlisted for multiple hackathons and reached final rounds in several competitions.
- GSSoC 2026 Contributor (AI Agents track).
- Hackathon Ambassador, HackHazards 2026.
- Built and publicly showcased 9+ shipped projects and maintains an active project/demo presence on GitHub and YouTube.

CERTIFICATIONS

- Python Essentials 1 – Cisco
- Database Management System Part - 1 – Infosys Springboard
- Network Fundamentals – Infosys Springboard
- The Complete Power BI Practical Course 2026 – Udemy
- Advanced Product Management: Leadership & Communication – Udemy
- AI FOR ALL – Digital India Programme
- Business Model Canvas Masterclass: How Business Models Work – Udemy
- Entrepreneurship Course – Infosys Springboard
- Start a Business: Design Thinking & Entrepreneurship [2025] – Udemy
- Startup Growth Strategies: Simple Approaches for Fast Growth – Udemy

EDUCATION

B.Tech in Computer Science Engineering, ABES Institute of Technology | 2023 – 2027 (Expected) | Ghaziabad, Uttar Pradesh

- Relevant coursework: Data Structures, Web Development, Database Management Systems, Algorithms, and Software Engineering.

Senior Secondary (Class XII), Bal Bhavan Public School | 2021 – 2023

- Completed Class XII in Science stream with 77%.

Secondary (Class X), Bal Bhavan Public School | Completed

- Completed Class X with 83%.
